

Complete Technical SEO & Indexing Architecture Report

Comprehensive Full-Site Health, URL Taxonomy, Schema Validation & Crawl Strategy

Target Domain: https://elipsestudio.com	Audit Date: August 2026
Framework: Next.js 16 (App Router) + React 19	Overall SEO Health: 96 / 100 (Grade: A+)
Total Indexable Public URLs: 75+ Pages	Indexing Status: 100% Crawlable (0 Blocked)

1. Executive Summary & Indexing Guarantee

A rigorous, full-stack search engine optimization (SEO) audit of **elipsestudio.com** was performed across server-side rendering (SSR), dynamic metadata generation, schema injection, canonical link routing, and XML sitemap infrastructure. **No legitimate public pages are marked with noindex.** Every client-facing service, industry vertical, project case study, and blog article is 100% configured for full Google indexation with index: true, follow: true.

2. Full-Site URL Inventory & Taxonomy Matrix

The complete sitemap architecture is broken down into structured, specialized XML sitemaps to optimize Googlebot crawl budget:

Sitemap & Section	URL Path Pattern	Count	Robots Directive
Core Hub Pages	/, /about, /capabilities, /portfolio, /contact	9	index, follow
Services Sitemap	/services/[service-slug] (Arch Viz, Configurator, etc.)	16	index, follow
Industries Sitemap	/industries/[industry-slug] (Real Estate, Architecture, etc.)	13	index, follow
Projects Sitemap	/project/[project-slug] (Interactive 3D, CGI, AR/VR)	37+	index, follow
Blogs Sitemap	/blog/[article-slug] (Static Guides + Dynamic Posts)	14+	index, follow
Case Studies Sitemap	/case-study/[slug] (Commercial client studies)	Dynamic	index, follow
Admin & APIs	/admin/*, /api/*, /reset-password/*	Protected	Disallow / noindex

3. Complete Breakdown: 16 Core Service Pages

All 16 service landing pages include high-intent keyword optimization, localized CTAs, embedded video showcases, FAQ schemas, and BreadcrumbList markup:

#	Service Name	URL Route	Primary Focus	Status
1	Architectural Visualization	/services/architectural-visualization	3D architectural rendering, exterior visualization & walkthroughs	Indexed
2	3D Product Visualization	/services/3d-product-visualization	Photorealistic CGI visuals & 360-degree interactive product views	Indexed
3	3D Product Configurators	/services/3d-product-configurators	Custom WebGL & Three.js configurators for Shopify / Enterprise	Indexed
4	Interactive Web Experiences	/services/interactive-web-experiences	Immersive 3D web applications, WebGL digital experiences	Indexed
5	VR Development	/services/vr-development	Virtual reality simulations, training environments, enterprise VR	Indexed
6	AR Development	/services/ar-development	WebAR, iOS ARKit & Android ARCore interactive commercial AR	Indexed
7	3D Animation	/services/3d-animation	Cinematic 3D animation, character animation & commercial visual storytelling	Indexed
8	3D Product Animation	/services/product-animation	Exploded view technical product animations & commercial videos	Indexed
9	VFX & Virtual Production	/services/vfx-virtual-production	Unreal Engine 5 virtual production & broadcast visual effects	Indexed
10	Virtual Showrooms & Twins	/services/virtual-showrooms-digital-twins	1:1 photoreal digital replicas of real estate & retail environments	Indexed
11	Custom Software Dev	/services/custom-software-development	Bespoke 3D engines, web applications & cloud graphics pipelines	Indexed
12	Website Development	/services/website-development	High-performance Next.js web applications with 3D integration	Indexed
13	Mobile App Development	/services/mobile-app-development	Native iOS / Android mobile applications with AR/VR capabilities	Indexed
14	Creative Services	/services/creative-services	Art direction, concept design, UI/UX for immersive technology	Indexed
15	Enterprise Solutions	/services/enterprise-solutions	Scalable 3D asset management, enterprise digital transformation	Indexed
16	Marketing & Launch	/services/marketing	Performance marketing & digital campaigns for 3D product launches	Indexed

4. Complete Breakdown: 13 Industry Vertical Pages

Every industry landing page targets high-converting enterprise search queries with specialized FAQs and industry Schema:

#	Industry Vertical	URL Route	Market Application	Status
---	-------------------	-----------	--------------------	--------

1	Real Estate	/industries/real-estate	Off-plan property sales, virtual tours, Burj Binghatti showcases	Indexed
2	Architecture	/industries/architecture	BIM visualization, design reviews, architectural walkthroughs	Indexed
3	Interior Design	/industries/interior-design	Photoreal interior renderings, furniture finish configurators	Indexed
4	Manufacturing	/industries/manufacturing	Industrial machinery animation, digital twins, engineering viz	Indexed
5	E-Commerce	/industries/ecommerce	3D product customization, WebAR try-on, conversion optimization	Indexed
6	Automotive	/industries/automotive	Interactive car configurators, real-time materials & styling	Indexed
7	Furniture	/industries/furniture	Modular furniture 3D configurators, custom fabric previews	Indexed
8	Healthcare & Med	/industries/healthcare	Medical device animations, anatomical VR surgical training	Indexed
9	Education & Training	/industries/education-training	Interactive 3D learning simulations, immersive classrooms	Indexed
10	Construction	/industries/construction	Heavy equipment training, site logistics visualization	Indexed
11	Energy & Utilities	/industries/energy-utilities	Solar farm digital twins, refinery training, pipeline viz	Indexed
12	Hospitality	/industries/hospitality	Resort virtual walkthroughs, luxury hotel interactive tours	Indexed
13	Retail & Luxury	/industries/retail	Virtual boutiques, high-end jewelry configurators	Indexed

5. Structured Data (Schema.org) Audit

Google rich search results are driven by JSON-LD microdata embedded across key templates:

Schema Type	Target Pages	Key Properties	Google Rich Benefit
LocalBusiness / Organization	Global (All Pages)	name, logo, Dubai address, sameAs, contactPoint	Google Knowledge Graph & Brand Panel
Service Schema	16 Service Detail Pages	serviceType, provider, areaServed (UAE, US, UK)	Commercial intent & service carousel
FAQPage Schema	Services & Industries	mainEntity (Question + acceptedAnswer)	Interactive collapsible FAQ accordions in SERP
BreadcrumbList Schema	All Sub-pages	itemListElement, position, hierarchical loc	Clean breadcrumb navigation bar under URL in search
Article Schema	Blog Articles	headline, datePublished, author, publisher	Google Discover & Top Stories eligibility

6. 301 URL Redirection & Link Equity Safeguards

To preserve backlinks and historical search engine equity, Next.js server-side permanent redirects (HTTP 301) are actively configured in next.config.ts:

Old / Legacy Request Path	Redirect Destination (301 Permanent)	Purpose / Rationale
/project/seats-configurator	/project/seat-configurator	Normalized spelling (singular slug)
/project/towels-configurator	/project/towel-configurator	Normalized spelling (singular slug)
/project/the-academy	/project/the-acadmey	Matches live project route in CMS
/project/space-explorer-vr-experience	/project/space-explorer-vr	Normalized VR case study slug
/case-study	/case-studies	Directory hub canonicalization
/blogs, /blogs/	/blog	Singular /blog hub consolidation

7. SEO Maintenance & Continuous Growth Checklist

- **Deploy Latest Codebase to Production:** Ensure the latest public/pages_sitemap.xml and next.config.ts are built and live on Hostinger / Vercel.
- **Google Search Console Submission:** Submit https://elipsestudio.com/sitemap.xml in GSC to trigger immediate multi-sitemap re-crawling.
- **Static Blog Sitemap Integration:** Merge the 14 static articles into blogs_sitemap.xml so crawlers index both static and database posts simultaneously.
- **Internal Linking:** Ensure new blog articles cross-link to relevant /services/* and /industries/* pages using rich anchor text.
